

Reviewing Material Frequently

A student who does not review material can forget 80% of what has been learned in only two weeks! The first review should come very shortly after the material was first presented and studied. Reviewing early acts as a safeguard against forgetting and helps you remember far longer. Frequent reviews throughout the course will bring rewards at test time and will alleviate pre-test anxiety.

set. For example, when you sit down at the kitchen table, you expect to eat. When you sit down in an easy chair, you watch TV, etc. Developing the habit of studying in the same place at the same time every day will improve your concentration.

Keeping a Well-Kept Notebook Improves Grades

There is definitely a relationship between orderliness and high grades. Knowing where to find your materials when you need them is crucial. Keep a special section for each subject in your notebook as well as a calendar so that you can write down all important assignments as they are announced. Having all of this information together in one place is vital to your success. A well-kept notebook is a part of good time management. If you've ever misplaced an important assignment, you know how much valuable time can be lost looking for it.

Keeping a Careful Record of Assignments

Put it down in black and white—including the details—and keep it in your notebook. Knowing just what you are expected to do and when you are expected to do it is the first giant step toward completing important assignments successfully and on time.

Equipping Your Study Area With All the Materials You Need

Your study desk or table should be equipped with all the materials you might need to complete the assignment, e.g., pencils, pens, erasers, paper clips, stapler, dictionary, snacks, and liquid refreshments, etc. For some assignments, you may require a calculator or other supplies. With your materials at hand, you can study without interruption. Taking your snack food and drinks to the study location will eliminate those endless trips to the kitchen which break your concentration.

Not Depending on Tests/Exams for Motivation

Can you imagine an athlete-in-training waiting for inspiration to strike to practice in preparation for an event? Of course not. They train daily to stay competitive whether they want to or not. Like the athlete, you must get in training for tests and examinations by doing the assignments and preparing daily through review to be ready for the action.

Studying in an Appropriate Setting — Same Time, Same Place, Every Day

If concentration is your problem, then the right surroundings will help you greatly. Your study desk or table should be in a quiet place – free from as many distractions as possible. You will concentrate better when you study in the same place every day. It's a mind-

Mathematics

Prescribed Book: Universal Mathematics (Pearson)

Month	Concept of the month	Syllabus
April	Number names up to 4- digit numbers	CH 1 Numbers Odd and even numbers Numbers beyond 999 Place value, Face value Before (Predecessor), Between, After (Successor) Skip Counting Comparison of 4-digit numbers Formation of greatest and smallest number Roman numbers Activity: Students will cut 10 square cards out of a pastel sheet with numbers 0 to 9, then randomly select 4 numbers. The teacher will instruct them to write smallest number, largest number, expanded form etc. CH 2 Addition Properties of Addition Addition of 3- & 4-digit numbers (with and without regrouping) Activity: Students are provided the data regarding different events that the people have attended in a day. They will solve according to the instructions given by the teacher.
May Class Test-1	Subtraction on 4-digit numbers (with & without regrouping)	CH 2 Addition <ul style="list-style-type: none"> Word problems CH 3 Subtraction <ul style="list-style-type: none"> Properties of Subtraction Subtraction of 3- & 4- digit numbers (with and without regrouping) Word problems Activity: Roll the dice to form 4 digit numbers and find the difference between them.

January	Half of a collection	CH 6 Fractions <ul style="list-style-type: none"> Writing fractions Fraction of a collection Finding fractions Numerator and denominator Activity: Create a collection of different objects, mark half of collection and write the fraction for it.
Class Test-5	Interpretation of Data	CH 12 Data Handling <ul style="list-style-type: none"> Recording of Data Pictorial representation of Data & its interpretation Activity: Collect the data from the students on the given topic (favourite snacks/ colours/ pet/ subjects) , represent the data on the pictograph and interpret it.
February		<u>Revision</u>
March		Annual Exam

November Class Test-4	Conversion of units (such as kg to g, km to m, m to cm, l to ml)	CH 9 Measurement <ul style="list-style-type: none"> Measuring length & its conversion Measuring mass & its conversion Measuring capacity & its conversion Activity: Use measuring tape to measure the length of different objects around then convert, compare, add & subtract. CH 11 Money <ul style="list-style-type: none"> Adding paise to make rupee Expressing money in figures and words Conversion of rupees into paise Addition & subtraction of money Multiplication of money without decimal Word problems Activity: Prepare a list of items for grocery shopping along with price tags then apply different operations.
December PT-2	Reading time in Quarter	CH 10 Time <ul style="list-style-type: none"> Reading time to 5 minutes & in quarter hour Use of A.M & P.M Calendar How to write dates Activity: Note the time of various daily activities, illustrate them with pictures and write the time in minutes, past and quarter with respect to a.m. & p.m

July PT-1	Multiplication of 3-digit numbers by 1-digit number without regrouping	CH 4 Multiplication <ul style="list-style-type: none"> Facts & Properties of multiplication Multiplication as repeated addition Multiplication by 1- & 2-digit numbers (with & without regrouping) by column method Multiplication by 10, 100, 1000 Word problems. Activity: Students can use strips of different colours to find the products of various numbers.
August Class Test-2	Simple Geometrical Shapes (Point, line, line segment, ray)	CH 7 Geometry <ul style="list-style-type: none"> Simple Geometrical Concepts Open & closed figures Symmetry View Plane shapes Solid shapes CH 8 Patterns <ul style="list-style-type: none"> Patterns Around Us Activity: Make different types of patterns using stickers or any objects around.
September Term 1		Revision
October Class Test-3	Division of 3-digit numbers by 1-digit number (with remainder)	CH 5 Division <ul style="list-style-type: none"> Facts & properties of division Division by 1-digit number (with & without remainder) Division by 10 Word problems Identify the mathematical operation Activity: Strips of same colours will be placed in the pockets, the remaining strips will represent the remainder.

<p>SET YOURSELF UP FOR SUCCESS</p> <p>TAKE RESPONSIBILITY</p> <p>All the study methods in the world won't help you if you don't help yourself. As with most everything in your life, your motto should be, "I'm responsible for my success!"</p> <p>If you put forth the effort to study effectively, the improved skills will soon become a habit and be just as natural as breathing. The result can be better grades, greater knowledge, and higher self-esteem. These skills will also serve you well in your personal life.</p> <p>STUDY EFFECTIVELY</p> <p>Studying effectively is not a matter of chance. Students usually devote a lot of time to their studies but they achieve success only by forming correct study habits. By following the methods given below the students learn more easily, retain material for longer periods of time, and save themselves hours of study time.</p> <p>Making and Keeping a Study Schedule</p> <p>Set aside certain hours of each day for study just as you do for nourishment and sleep. Keep the same schedule faithfully from day-to-day. The amount of time needed for study will vary for each student based on skills with the subject matter. An average of two to three hours of study each day is recommended. Make a weekly timetable. Have short frequent periods for each subject rather than long hours for one. Start with interesting easy lessons / topics and then proceed towards difficult ones.</p> <p>Studying in an Appropriate Setting — Same Time, Same Place, Every Day</p> <p>If concentration is your problem, then the right surroundings will help you greatly. Your study desk or table should be in a quiet place – free from as many distractions as possible. You will concentrate better when you study in the same place every day. It's a mind-set. For example, when you sit down at the kitchen table, you expect to eat. When you sit down in an easy chair, you watch TV, etc. Developing the habit of studying in the same place at the same time every day will improve your concentration.</p> <p>Equipping Your Study Area With All the Materials You Need</p> <p>Your study desk or table should be equipped with all the materials you</p>	<p>might need to complete the assignment, e.g., pencils, pens, erasers, paper clips, stapler, dictionary, snacks, and liquid refreshments, etc. For some assignments, you may require a calculator or other supplies. With your materials at hand, you can study without interruption. Taking your snack food and drinks to the study location will eliminate those endless trips to the kitchen which break your concentration.</p> <p>Not Depending on Tests/Exams for Motivation</p> <p>Can you imagine an athlete-in-training waiting for inspiration to strike to practice in preparation for an event? Of course not. They train daily to stay competitive whether they want to or not. Like the athlete, you must get in training for tests and examinations by doing the assignments and preparing daily through review to be ready for the action.</p> <p>Keeping a Well-Kept Notebook Improves Grades</p> <p>There is definitely a relationship between orderliness and high grades. Knowing where to find your materials when you need them is crucial. Keep a special section for each subject in your notebook as well as a calendar so that you can write down all important assignments as they are announced. Having all of this information together in one place is vital to your success. A well-kept notebook is a part of good time management. If you've ever misplaced an important assignment, you know how much valuable time can be lost looking for it.</p> <p>Keeping a Careful Record of Assignments</p> <p>Put it down in black and white—including the details—and keep it in your notebook. Knowing just what you are expected to do and when you are expected to do it is the first giant step toward completing important assignments successfully and on time.</p> <p>Reviewing Material Frequently</p> <p>A student who does not review material can forget 80% of what has been learned in only two weeks! The first review should come very shortly after the material was first presented and studied. Reviewing early acts as a safeguard against forgetting and helps you remember far longer. Frequent reviews throughout the course will bring rewards at test time and will alleviate pre-test anxiety.</p>
